Re: Addendum No. 1 for RFP for 2020 Wastewater Master Plan RFQ

The submission requirements for the 2020 Wastewater Master Plan RFQ are being revised to allow for a digital-only submission. Edgerton City Hall is still open to the public, therefore traditional in-person submissions as outlined in the RFQ will be accepted. The City of Edgerton is following guidance from the CDC and state and local health officials regarding the ongoing coronavirus pandemic; therefore, exercising an abundance of caution, digital-only submissions are accepted. The process for submission will be attaching your response to an email to KBanks@edgertonks.org with the subject line "RFQ response-2020 Wastewater Master Plan." Our email servers have an attachment size limitation of 25 MB. If your submission should be larger, please email (same address as above) a link to your own hosted cloud/FTP/file sharing service for City Staff to download.

The deadline remains unchanged, the emails with attachments or links to download need to be received by that time.
