Example of drawing for an Accessory Structure (shed or fence)

Draw your placement of your Accessory below (Please note: New single and Multi-family structures require a certified plot plan from a licensed engineer.)

This is a blank site plan template for drawing an accessory structure. It includes a north arrow (N) in the top right corner and a width label of "70 ft" at the top. The drawing area is a large rectangle with a dashed line indicating the property boundary. A "Property Line" label is present at the bottom of the drawing area.
