Re: Addendum No. 2 for 2020 Stormwater Master Plan RFQ

---

Revising Addendum No. 1: The City of Edgerton is revising the submission requirements for the 2020 Stormwater Master Plan RFQ for a digital-only submission. Edgerton City Hall has closed to the public, so teams should remit responses in an email to KBanks@edgertonks.org with the subject line "RFQ response-2020 Stormwater Master Plan." Our email servers have an attachment size limitation of 25 MB. If your submission should be larger, please email (same address as above) a link to your own hosted cloud/FTP/file sharing service for City Staff to download.

The deadline remains unchanged. The emails with attachments or links to download need to be received by that time.

We have received a question about Edgerton's current CIP list. Please see the current list as approved by Edgerton City Council at <https://edgertonks.org/wp-content/uploads/10-24-19-Council-Packet.pdf>.
